Title: DoD Base Realignment and Closure Part 2. Department of the Air Force. FY 1994 Budget Estimates.

Date: Apr 93

Performing Organization: Department of the Air Force, Washington, DC.

Type of Report and Period Covered: Report to the Congress.

Supplementary Notes: See also Part 1, PB93-199081.

NTIS Field/Group Codes: 74E

Price: PC A08/MF A02

Availability: Available from the National Technical Information Service,  
Springfield, VA. 22161

Number of Pages: 173p

Keywords: \*Military base closings, \*Budget estimates, \*Air force, US DOD, Reductions, Military bases, Cost engineering.

Abstract: Table of Contents: Base Closure and Realignment; Financial Summary; Base Closure and Realignment Detail - By Package; Bergstrom AFB, Texas; Carswell AFB, Texas; Castle AFB, California; Eaker AFB, Arkansas; England AFB, Louisiana; Grissom AFB, Indiana; Loring AFB, Maine; Lowry AFB, Colorado; MacDill AFB, Florida; Myrtle Beach AFB, South Carolina; Richards-Gebaur ARS, Missouri; Rickenbacker AGB, Ohio; Williams AFB, Arizona; Wurtsmith AFB, Michigan; Chanute AFB, Illinois; George AFB, California; Mather AFB, California; and Program Management.

**Base Closure and Realignment**

**U.S. Air Force**

**FY 1994 President's Budget**

**Part II - 1991 Commission Actions**

**April 1993**

## **BASE CLOSURE AND REALIGNMENT**

### **U.S. Air Force Overview**

**Schedule/Mission Impact:** The following schedule was developed to minimize the impact on Air Force mission capability while placing priority on closing the thirteen bases and realigning one base as recommended by the 1991 Base Closure Commission and directed by the Defense Base Closure and Realignment Act, P.L. 101-510. It is the Air Force's objective to close the thirteen bases and realign one base at the earliest opportunity to take advantage of savings provided by reductions to Air Force end strength, reductions to base operating support costs, and anticipated proceeds from sale of real property at the closure bases. The savings associated with these closure actions are for display purposes only and will accrue in other Air Force accounts. The funding profiles associated with the schedule have been programmed to accomplish this objective. Also included are those requirements generated by the 1991 Base Closure Commission changes to the 1988 Base Closure Commission recommendations.

**FY 1992:** Air Force requirements for FY 1992 consisted of planning, designing and initiating military construction projects to accommodate the movement of units into gaining locations. Funding was also necessary for environmental compliance and restoration actions to meet requirements of the National Environmental Policy Act at each closure/realignment location.

**Bergstrom.** Base Closure Account requirement: \$11.2 Million  
The funding is primarily related to environmental and restoration actions.

**Carswell.** Base Closure Account requirement: \$6.6 Million  
Funding is primarily related to environmental and restorations requirements.

**Castle.** Base Closure Account requirement: \$25.1 Million  
The funding is primarily related to environmental and restoration actions.

**Eaker.** Base Closure Account requirement: \$11.1 Million  
The funding is primarily related to environmental and restoration actions.

**England.** Base Closure Account requirement: \$7.8 Million  
The funding is primarily related to environmental and restoration actions.

**Grisson.** Base Closure Account requirement: \$1.4 Million  
The funding is primarily related to environmental and restoration actions.

**Loring.** Base Closure Account requirement: \$22.8 Million  
The funding is primarily related to environmental and restoration actions.

**Lowry.** Base Closure Account requirement: \$3.0 Million  
The funding is primarily related to environmental and restoration actions.

**MacDill.** Base Closure Account requirement: \$14.7 Million  
The funding is primarily related to environmental and restoration actions.

**Myrtle Beach.** Base Closure Account requirement: \$29.1 Million  
The funding is primarily related to environmental and restoration actions.

**Richards-Gebaur.** Base Closure Account requirement: \$2.0 Million  
The funding is primarily related to environmental and restoration actions.

**Rickenbacker.** Base Closure Account requirement: \$13.6 Million  
The funding is required to modify on-going construction projects at gaining locations in order to take advantage of reduced design and construction costs. Environmental requirements are also included.

**Williams.** Base Closure Account requirement: \$15.3 Million  
The funding is primarily related to environmental and restoration actions.

**Wurtsmith.** Base Closure Account requirement: \$9.7 Million  
The funding is primarily related to environmental and restoration actions.

**Program Management.** Base Closure Account requirement: \$31.3 Million  
Funding is primarily related to planning and design costs for military construction at gaining locations and cantonment areas, additional manpower authorizations to administer the program, caretaker contracts, and disposal environmental studies.

**FY 1993:** Eaker and England AFBs closed 15 December 1992. Myrtle Beach AFB closed 31 March 1993. Bergstrom, Carswell, Williams and Wurtsmith AFBs will close by the end of the year. Additionally, Chanute, George, and Mather AFBs will close as recommended by the 1988 Base Closure Commission. All Active Duty force structure at these bases will be relocated or retired, and all active military and civilian personnel will relocate or be eliminated from Air Force end strength. Disposition of Reserve forces is specified in individual closure packages. Numerous units will be relocated or inactivated. Funding is primarily related to construction projects required at gaining locations and workaround projects for units to operate until their receiving facilities are completed. Environmental studies will be completed or continued as necessary and environmental restoration will be initiated. Numerous units will be relocated or inactivated. Funds are required to pay both military and civilian moving costs and civilian separation costs.

**Bergstrom.** Base Closure Account requirement: \$44.4 Million  
The funding is primarily related to construction for the units moving to Davis-Monthan AFB, AZ, and Fort Hood, TX, the purchase and installation of communications equipment at Davis-Monthan, and for a munitions storage area for the Reserve unit remaining at Bergstrom. The base will close in the fourth quarter. Environmental restoration actions will continue until cleanup is completed.

**Carswell.** Base Closure Account requirement: \$45.6 Million

Funding will be required for construction at gaining locations and for the AF Reserve cantonment area at Carswell. All Active force structure will be relocated. Funding will be required for personnel moves or separations. The base closes in the fourth quarter. Environmental actions will continue until completion of the cleanup.

**Castle.** Base Closure Account requirement: \$60.8 Million

The funding is primarily related to the construction required to transfer the Combat Crew Training mission to Fairchild AFB, WA and environmental compliance and restoration costs. Environmental actions will continue until completion of the cleanup.

**Eaker.** Base Closure Account requirement: \$59.5 Million

The base closed 15 December 1992. Funding is required for caretaker, remaining personnel relocations, and environmental compliance and restoration costs. Environmental actions will continue until completion of the cleanup.

**England.** Base Closure Account requirement: \$33.1 Million

The base closed 15 December 1992. Funding is required to complete construction of facilities for units moving to Eglin AFB, FL, McChord AFB, WA, and Camp Murray AGS, WA. Funding is required for caretaker, relocation of personnel, environmental compliance and restoration actions. Environmental actions will continue until completion of the cleanup.

**Grissom.** Base Closure Account requirement: \$29.6 Million

Funding is primarily related to temporary duty and environmental compliance and restoration. Environmental actions will continue until completion of the cleanup.

**Loring.** Base Closure Account requirement: \$37.5 Million

The funding is required primarily for construction of facilities for the alert detachment moving to Bangor AGS, ME, and environmental compliance and restoration costs. Environmental actions will continue until completion of the cleanup.

**Lowry.** Base Closure Account requirement: \$150.0 Million

Funding is primarily related to construction at gaining locations, moving training courses and equipment, and procurement of equipment for the electronics training course. Environmental actions will continue until completion of the cleanup.

**MacDill.** Base Closure Account requirement: \$41.6 Million

Funding is required for construction to support units moving to Luke AFB, AZ, and Seymour Johnson AFB, NC. Funds also are required for moving people munitions and equipment. Environmental actions will continue until completion of the cleanup.

**Myrtle Beach.** Base Closure Account requirement: \$30.4 Million

The base closed 31 March 1993. Funding is primarily related to construction for units moving to Luke AFB, AZ, Pope AFB, NC, and Seymour Johnson AFB, NC. The 73

Air (formerly Tactical) Control Squadron moved to Luke AFB, AZ by the end of the first quarter. Funding is required for caretaker, relocation of personnel, environmental compliance and restoration actions. Environmental actions will continue until completion of the cleanup.

**Richards-Gebaur.** Base Closure Account requirement: \$32.8 Million

Funding is required for construction supporting units moving to Whiteman AFB, MO. Environmental actions will continue until completion of the cleanup.

**Rickenbacker.** Base Closure Account requirement: \$71.6 Million

The 4950 Test Wing begins its relocation to Edwards AFB, CA, and the 907 (formerly Strategic) Airlift Group (AFRES) relocates to Wright-Patterson AFB, OH. Funding is required for construction at the gaining locations to support these units and to move personnel and equipment, and environmental compliance and restoration operations. Environmental actions will continue until completion of the cleanup.

**Williams.** Base Closure Account requirement: \$19.1 Million

The base will close by the end of the fourth quarter. Funding is for costs associated with environmental compliance and restoration initiation. Environmental actions will continue until completion of the cleanup.

**Wurtsmith.** Base Closure Account requirement: \$21.3 Million

Funding primarily related to relocation of forces and environmental compliance and restoration costs. The base closes 30 June 1993. Funding is required for caretaker, relocation of personnel, environmental compliance and restoration actions. Environmental actions will continue until completion of cleanup.

**Chanute.** Base Closure Account requirement: \$50.0 Million

Chanute will close by the end of the year. Funding is required for construction for redirected activities and communications installation at gaining locations, movement of people and equipment, and mission workarounds to be used until construction is complete.

**George.** Base Closure Account requirement: \$49.7 Million

The base closed 15 December 1992. Construction will continue at Mountain Home AFB, ID, and Cannon AFB, NM. Funding is also required for moving people and equipment, and civilian pay. Workarounds will have to be funded until construction is completed.

**Mather.** Base Closure Account requirement: \$79.7 Million

Mather will close by the end of the year. Construction is required at Randolph AFB, TX and McClellan AFB, CA, and on the Mather hospital which will become an annex to McClellan. Communications equipment must be installed in the new facilities. Additional funds are required for moving people and equipment.

**Program Management.** Base Closure Account Requirement: \$49.2 Million  
Funding is primarily related to planning and design costs for military construction at gaining locations and cantonment areas, additional manpower authorizations to administer the program, caretaker contracts, disposal environmental studies, planning and design costs for military construction at gaining locations and cantonment areas, and Disposal Management Teams.

**FY 1994.** Grissom, Loring, Lowry, Richards-Gebaur and Rickenbacker will be closed by the end of the year. All Active Duty force structure at these bases will be relocated or retired, and all active military and civilian personnel will relocate or be eliminated from Air Force end strength. Disposition of Reserve forces is specified in individual closure packages. Numerous units will be relocated or inactivated. Funds are required to pay both military and civilian moving and civilian separation costs. In addition, the flying mission at MacDill will be terminated, and the remainder of the base will be converted to an administrative base. Funding is primarily related to construction projects required at gaining locations and workaround projects for units to operate until their receiving facilities are completed. Environmental studies will be completed or continued as necessary and environmental restoration will be initiated. Numerous units will be relocated or inactivated. Funds will be required to pay moving or separation costs.

**Bergstrom.** Base Closure Account requirement: \$8.7 Million  
Funding is related to the AFRES cantonment facilities at Bergstrom and the purchase and installation of communications equipment at Davis-Monthan AFB. Environmental actions continue.

**Carswell.** Base Closure Account requirement: \$5.8 Million  
Funding supports caretaker operations and continuing environmental actions.

**Castle.** Base Closure Account requirement: \$73.0 Million  
Major construction projects continue for the Combat Crew Training mission transfer to Fairchild AFB, WA. Environmental actions continue.

**Eaker.** Base Closure Account requirement: \$2.4 Million  
Funding supports remaining caretaker actions. Environmental actions continue.

**England.** Base Closure Account requirement: \$23.0 Million  
Funding supports construction for realigning units at McChord AFB WA and remaining caretaker and environmental actions.

**Grissom.** Base Closure Account requirement: \$24.0 Million  
Funding is primarily related to construction of the AF Reserve cantonment area, procurement of communications equipment, relocation of forces, and environmental compliance and restoration costs. The base closes in the fourth quarter. Environmental actions will continue until completion of cleanup.

**Loring.** Base Closure Account requirement: \$30.1 Million

The funding is primarily related to relocation of forces, construction at Dyess AFB, TX, procurement of communications equipment, and environmental compliance and restoration costs. The base closes in the fourth quarter. Environmental actions will continue until completion of cleanup.

**Lowry.** Base Closure Account requirement: \$33.8 Million

All remaining training courses relocate to various other Technical Training Centers. The base closes in the fourth quarter. The Air Reserve Personnel Center, Defense Finance and Accounting Service, and the 3567 USAF Recruiting Squadron remain in a cantonment area. The 1001 Space Systems Squadron will remain in a separate cantonment area. Environmental actions will continue until completion of cleanup.

**MacDill.** Base Closure Account requirement: \$46.1 Million

The Joint Communications Support Element (JCSE) will relocate to Charleston AFB, SC, and the 71 Air (formerly Tactical) Control Squadron will relocate to Seymour Johnson AFB, NC. Construction is required at the gaining locations to support these units. Funding is also required to purchase communications equipment for the JCSE's new facilities. All F-16C/Ds will depart by the end of the first quarter. The 56 Fighter (formerly Tactical Training) Wing and all of its supporting units will be inactivated by the end of the year. Environmental actions will continue until completion of cleanup.

**Myrtle Beach.** Base Closure Account requirement: \$7.4 Million

Funding supports caretaker requirements. Environmental actions continue.

**Richards-Gebaur.** Base Closure Account requirement: \$17.0 Million

The 442 Tactical Fighter Wing relocates to Whiteman AFB, MO. The base closes the end of the fourth quarter. Funding is for the movement of personnel and equipment, installation of equipment, and training personnel to replace personnel lost due to relocation. Environmental actions will continue until completion of cleanup.

**Rickenbacker.** Base Closure Account requirement: \$53.5 Million

The 4950 Test Wing completes its move to Edwards AFB, CA, and the 160 Air Refueling Group (ANG) and the 121 Air Refueling Wing (ANG) relocate to Wright-Patterson AFB, OH. Funding is primarily related to movement of personnel and equipment, construction projects at gaining locations, procurement and installation of equipment, training replacement personnel for those lost due to the relocation, and environmental compliance and restoration costs.

**Williams.** Base Closure Account requirement: \$12.2 Million

Funding supports caretaker requirements. Environmental actions continue.

**Wurtsmith.** Base Closure Account requirement: \$47.6 Million

Funding supports caretaker and continuing environmental actions.

**Chanute.** Base Closure Account requirement: \$4.5 Million  
Funding is required to complete construction at Sheppard AFB TX.

**George.** Base Closure Account requirement: \$4.9 Million  
Funding is required to complete construction at Mountain Home AFB ID.

**Mather.** Base Closure Account requirement: \$1.6 Million  
Funding is required to complete construction at Randolph AFB TX and to store equipment until construction is completed.

**Program Management.** Base Closure Account Requirement: \$19.1 Million  
Funding is primarily related to planning and design costs for military construction at gaining locations and cantonment areas, additional manpower authorizations to administer the program, caretaker contracts, disposal environmental studies, planning and design costs for military construction at gaining locations and cantonment areas, and Disposal Management Teams.

**FY 1995.** Castle AFB, CA will close by the end of the year. All other bases will continue in caretaker status until property ownership is transferred. Environmental restoration will continue until completion. In some cases, requirements may be offset by estimated revenues from the sale of real property.

**Bergstrom.** Base Closure Account requirement: (\$6.4 Million)  
Environmental actions continue. The Air Force estimates there may be \$8.0 Million in proceeds from the sale of real property.

**Carswell.** Base Closure Account requirement: (\$5.0 Million)  
Environmental actions continue. The Air Force estimates there may be \$8.0 million in proceeds from the sale of real property.

**Castle.** Base Closure Account requirement: \$32.6 Million  
Funding primarily related to construction for the Combat Crew Training mission at Fairchild AFB, WA, and relocation of forces and simulators. Environmental compliance and restoration actions continue. The base closes in the fourth quarter.

**Eaker.** Base Closure Account requirement: (\$5.2 Million)  
The Air Force estimates there may be \$8.0 million in proceeds from the sale of real property. Environmental actions continue.

**England.** Base Closure Account requirement: \$2.5 Million  
Funding supports caretaker operations. Environmental actions continue.

**Grissom.** Base Closure Account requirement: \$4.2 Million  
Funding supports caretaker operations, civilian unemployment compensation and supplies. Environmental actions continue.

**Loring.** Base Closure Account requirement: \$35.5 Million  
Funding supports caretaker operations and continued environmental actions.  
Additionally, the Air Force estimates there may be \$8.0 million in proceeds from the sale of real property.

**Lowry.** Base Closure Account requirement: \$5.9 Million  
Funding is related primarily to workarounds used by individual units until construction of permanent facilities is completed. Environmental actions will continue until completion of cleanup.

**MacDill.** Base Closure Account requirement: \$1.2 Million  
Funding support caretaker operations. Environmental actions continue.

**Myrtle Beach.** Base Closure Account requirement: (\$5.4 Million)  
Funding supports caretaker operations. Environmental actions continue. Additionally, the Air Force estimates there may be \$8.0 million in proceeds from the sale of real property.

**Richards-Gebaur.** Base Closure Account requirement: \$4.4 Million  
Funding supports caretaker operations and civilian unemployment compensation.  
Environmental actions continue.

**Rickenbacker.** Base Closure Account requirement: \$4.8 Million  
Funding supports caretaker operations. Environmental actions continue.

**Williams.** Base Closure Account requirement: (\$4.8 Million)  
Funding supports caretaker operations. Environmental actions continue. The Air Force estimates \$8.0 million may be realized in proceeds from the sale of real property.

**Wurtsmith.** Base Closure Account requirement: \$2.9 Million  
Funding supports caretaker operations. Environmental actions continue.

**Mather.** Base Closure Account requirement: \$.4 Million  
Funding supports caretaker operations. Environmental actions continue.

**Program Management.** Base Closure Account Requirement: \$14.5 Million  
Funding is primarily related to additional manpower authorizations to administer the program, caretaker contracts, disposal environmental studies, planning and design costs for military construction cantonment areas, and Disposal Management Teams.

**FY 1996.** All bases have closed by the end of FY 95 and will continue in caretaker status until property ownership is transferred. Environmental restoration will continue until completion. Requirements may be offset by estimated revenues from the sale of real property and unobligated balances from prior years.

**Bergstrom.** Base Closure Account requirement: \$.7 Million  
Funding supports environmental actions. Environmental cleanup actions continue.

**Carswell.** Base Closure Account requirement: \$9.3 Million  
Funding supports caretaker operations. Environmental actions continue.

**Castle.** Base Closure Account requirement: \$4.4 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Eaker.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**England.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Grissom.** Base Closure Account requirement: (\$4.0 Million)  
Environmental cleanup actions and caretaker operations continue. The Air Force estimates \$8 Million in proceeds may be realized from the sale of real property.

**Loring.** Base Closure Account requirement: \$7.6 Million  
Environmental cleanup actions and caretaker operations continue.

**Lowry.** Base Closure Account requirement: (\$96.0 Million)  
Funding supports caretaker operations and civilian personnel expenses. Environmental cleanup actions continue. The Air Force estimates \$100 Million may be realized in FY 96 in proceeds from land sales revenues.

**MacDill.** Base Closure Account requirement: (\$48.7 Million)  
Environmental cleanup actions continue. Some caretaker requirements remain. The AF estimates \$50.0 Million may be realized in proceeds from land sales revenues.

**Myrtle Beach.** Base Closure Account requirement: \$2.0 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Richards-Gebaur.** Base Closure Account requirement: (\$4.5 Million)  
Funding supports caretaker operations. Environmental cleanup actions continue. The Air Force estimates \$8.0 Million may be realized in proceeds from the sale of real property.

**Rickenbacker.** Base Closure Account requirement: (\$4.5 Million)  
Funding supports caretaker operations. Environmental cleanup actions continue. The Air Force estimates \$8.0 Million may be realized in proceeds from the sale of real property.

**Williams.** Base Closure Account requirement: \$1.4 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Wurtsmith.** Base Closure Account requirement: (\$6.4 Million)  
Environmental cleanup actions and caretaker operations continue. The Air Force estimates \$8.0 Million may be realized in proceeds from the sale of real property.

**Mather.** Base Closure Account requirement: \$0  
Environmental actions continue.

**Program Management.** Base Closure Account Requirement: \$12.9 Million  
Funding is primarily related to additional manpower authorizations to administer the program, caretaker contracts, disposal environmental studies, and Disposal Management Teams.

**FY 1997.** All bases closed by the end of FY 95 and will continue in caretaker status until property ownership is transferred. Environmental restoration will continue until completion. Requirements may be offset by estimated revenues from the sale of real property and by applying unobligated balances from prior years.

**Bergstrom.** Base Closure Account requirement: \$0 Million  
Environmental cleanup actions continue.

**Carswell.** Base Closure Account requirement: \$0 Million  
Environmental cleanup actions continue.

**Castle.** Base Closure Account requirement: (\$24.0 Million)  
Environmental cleanup actions and caretaker operations continue. The Air Force estimates \$27.0 Million may be realized in proceeds from the sale of real property.

**Eaker.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**England.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Grissom.** Base Closure Account requirement: \$.6 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Loring.** Base Closure Account requirement: \$5.4 Million  
Funding supports continued environmental actions and caretaker operations.

**Lowry.** Base Closure Account requirement: \$.6 Million  
Environmental cleanup actions continue.

**MacDill.** Base Closure Account requirement: \$.6 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Myrtle Beach.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Richards-Gebaur.** Base Closure Account requirement: \$3.2 Million  
Funding supports caretaker operations and construction at Whiteman AFB.  
Environmental cleanup actions continue.

**Rickenbacker.** Base Closure Account requirement: \$1.2 Million  
Funding supports caretaker operations. Environmental cleanup actions continue.

**Williams.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Wurtsmith.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Mather.** Base Closure Account requirement: \$0  
Environmental cleanup actions continue.

**Program Management.** Base Closure Account Requirement: \$8.8 Million.  
Funding is primarily related to additional manpower authorizations to administer the program, caretaker contracts, disposal environmental studies, and Disposal Management Teams.

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Bergstrom Air Force Base, Texas**

**Closure Package:** Bergstrom AFB, Texas, closes and assigned RF-4 aircraft retire by FY 1993/4. The 67 (formerly Tactical) Reconnaissance Wing will be inactivated. The Regional Corrosion Control Facility will remain if it continues to be economical for the Air Force to operate it there. The Air Force Reserve units will remain in a cantonment area if the base is converted to a civilian airport. In this case, funds will be required for construction of facilities in later years. If no decision on a civilian airport is reached by June 1993, the Reserve units will be redistributed. If the Reserve units stay but the airport is not an economically viable entity by the end of 1996, these units would also be redistributed. The 12th Air Force Headquarters, 12 Tactical Air Control Intelligence Squadron and the 602 Tactical Air Control Center Squadron will relocate to Davis-Monthan AFB, Arizona. The 712 Air Support Operations Center Squadron will relocate to Fort Hood, Texas. The 41 Electronic Combat Squadron will remain in place at Davis-Monthan AFB. Action to support the relocation and subsequent closure include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental compliance and restoration costs.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<b><u>FY 1994</u></b>			
Bergstrom AFB	POL Operations/Refueler Parking	1994	1,230
Bergstrom AFB	Alter Facilities for Base Support	1994	<u>2,800</u>
Total 1994			4,030

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

Exhibit BC-03

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; and polychlorinated biphenyl removal. There are currently 30 sites identified under the Bergstrom AFB Installation Restoration Program. Nine of these sites have been identified as requiring no further action. The remaining sites consist of landfills, spill sites, a fire training area and a radioactive waste area. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1993. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for FY 1993. The majority of remedial actions should be installed in the FY 1994 time frame. Long-term monitoring is expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Davis-Monthan AFB and the Army's Fort Hood. The expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Utilities and Rents	0.766	0.000	0.000	0.000
Caretaker	2.900	1.600	0.650	0.000
Unemployment	0.408	0.000	0.000	0.000

Military Personnel - PCS: N/A.

Other Procurement: Includes the costs to purchase communications equipment to support units moving to Davis-Monthan AFB, AZ.

Revenues From Land Sales: The Air Force estimates there may be \$8.0 Million in FY 95 in proceeds from the sale of real property. However, research into title documents indicates that approximately 2883 acres must be returned to the city of Austin when no longer required to meet military purposes. The balance of the property is expected to become part of an airfield-related public benefit transfer. Also, a portion of the base is to be retained for use by the Air Force Reserve.

**Savings:** Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

10. Description of Proposed Construction: Construct a single story operational facility and parking. Work includes all necessary support and utilities.				
11. REQUIREMENT: 1,900 SF ADEQUATE: 0 SUBSTANDARD: 0 <u>PROJECT:</u> Construct a POL operations facility and pavements for parking R-11 refueler vehicles. <u>REQUIREMENT:</u> A petroleum operations building is required to provide centralized facility for administering all base functions related to the receipt, storage, and issue of petroleum products. Space is also required for a laboratory where prescribed test must be made to assure that quality fuel is issued to all aircraft. <u>CURRENT SITUATION:</u> Bergstrom AFB provides base operating support (BOS) to the assigned Reserve units. Upon closure, the Reserve units will consolidate into a reduced area which will require the modification of some existing facilities as well as new construction. <u>IMPACT IF NOT PROVIDED:</u> Without the facilities provided by this project, the unit will not be capable of sustaining its mission requirements at Bergstrom AFB. <u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facilities Planning and Design Guide".

## **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

### **U.S. Air Force/Carswell Air Force Base, Texas**

**Closure Package:** Carswell AFB, Texas, will close by FY 1993/4. The 7 Bombardment Wing will inactivate. The B-52H aircraft will transfer to Barksdale AFB, Louisiana. The KC-135A aircraft will be redistributed to active and Air Reserve Component units. The 301 Tactical Fighter Wing (AFR), 457 Tactical Fighter Squadron (AFR), 73 Aerial Port Squadron (AFR), and 20 Medical Services Squadron (AFR) will remain at Carswell AFB, in a cantonment area. The 436 Strategic Training Squadron will realign to Dyess AFB, Texas. All other active personnel will depart. Actual construction amounts exceed the original estimate provided to the 1991 Base Closure Commission by 15% (\$3.4 million). The original estimates were derived from a costing model while the current estimates are based on detailed site surveys to establish requirements. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations and preparing facilities for the Air Force Reserve units remaining at Carswell AFB.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

### **One Time Implementation Costs:**

**Military Construction:** N/A.

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: Resource Conservation and Recovery Act closure of hazardous waste treatment/storage/disposal facility; underground storage tank testing and removal; contaminated soil removal; groundwater treatment; oil/water separator maintenance; and asbestos mitigation. There are currently 11 sites identified under the Carswell AFB Installation Restoration Program. These sites consist of a waste burial area, fire training area, fuels handling areas, drainage ditch, a stream, and landfills. Investigation and cleanup of these sites are being done

using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of additional contamination is currently underway and should be complete in FY 1993. Feasibility Studies to determine the most appropriate method of cleanup began in 1987 and are ongoing. The majority of the remedial actions should be installed in the FY 1993-94 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most reuse options. Where property transfers are not possible due to ongoing cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Barksdale, Dyess, Minot, and Tinker AFBs. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Other Purchased Services	0.021	0.000	0.000	0.000
Caretaker	3.900	3.000	1.500	0.000
Unemployment	0.409	0.000	0.000	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

EXHIBIT BC-02

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Castle Air Force Base, California**

**Closure Package:** Castle AFB, California, will close by FY 1995/4. The 93 Bombardment Wing will inactivate. The bomber and tanker Combat Crew Training missions will realign to Fairchild AFB, Washington and the B-52G aircraft will transfer to K.I. Sawyer AFB, Michigan. The 924 Air Refueling Squadron deactivated and the wing lost 10 KC-135A aircraft in 1991. The remaining KC-135A/R aircraft will be redistributed to active and Air Reserve Component units. All personnel will depart. Actions supporting these relocations and the subsequent base closure include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process and community reuse plans.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<b><u>FY 1994</u></b>			
Fairchild AFB	Add to/Alter Hydrant Fuel System (PH I)	1994	16,000
Fairchild AFB	Unaccompanied Enlisted Dorm	1994	4,650
Fairchild AFB	Student Officer Quarters (PH I)	1994	7,300
Fairchild AFB	Add to/Alter Composite Medical Facility	1994	2,100
Fairchild AFB	Add to/Alter Dental Clinic	1994	<u>600</u>
Total 1994			30,650

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act closure of hazardous waste facilities and corrective actions; underground storage tank testing and removal; closure of waste water treatment plants; closure of munitions sites; and closure of pesticide storage tank. There are currently 43 sites identified under the Castle AFB Installation Restoration Program. The sites consist of landfills, discharge areas, chemical disposal areas, fuel spill sites, fire training area and a PCB spill area. Investigation and cleanup of these sites is being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination should be complete in FY 1994. The Feasibility Study to determine the most appropriate method of cleanup should also be completed in FY 1994. Some remedial actions are already in place with others anticipated for the FY 1994-97 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases. The Air Force expects to meet environmental cleanup requirements after FY 94 by applying unobligated balances from prior years.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to K.I. Sawyer and Fairchild AFBs. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	0.000	1.105	0.000	0.000
Travel	0.133	2.296	0.000	0.000
Transportation of Things	0.000	2.316	0.000	0.000
Other Supplies	0.739	1.080	0.000	0.000
Caretaker	0.000	0.800	4.400	3.000
Other Purchased Services	6.851	1.827	0.000	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

10. Description of Proposed Construction: Pumping facility, operating storage tanks, control system, distribution piping, aircraft fueling outlets, cathodic protection system, replacement of airfield pavement, site work and utilities service.					
11. REQUIREMENT: 50 OL ADEQUATE: 18 OL SUBSTANDARD: 11 OL <u>PROJECT:</u> Add to and Alter B-52/KC-135 Hydrant Fueling System. This project will add 21 refueling outlets. <u>REQUIREMENT:</u> Beddown construction is required to support the relocation of the B-52/KC-135 Combat Crew Training Squadron (CCTS) from Castle AFB to Fairchild AFB. A type III hydrant refueling system with a hydrant refueling pit for every non-alert B-52/KC-135 Permanently Assigned Aircraft (PAA) to the base is needed. The base will have 19 B-52 and 23 KC-135 aircraft for the CCTS and 10 Washington Air National Guard (ANG) KC-135s. Of these aircraft, only two ANG KC-135s will be on alert. <u>CURRENT SITUATION:</u> Fairchild AFB currently has 16 B-52s, 26 KC-135s and 8 ANG KC-135s PAA with 15 aircraft on alert. Currently Fairchild has 18 usable hydrant refueling pits. With the current flying schedule, this situation is manageable with expensive workarounds. The CCTS will have double the flying hours of the current mission. <u>IMPACT IF NOT PROVIDED:</u> Sortie training rates will be hard to manage and more expensive to perform by truck refueling. During generation, truck refueling will cause excessive refueling time and maintenance personnel will be unable to meet mission taskings. <u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide."

10. Description of Proposed Construction: Site improvements, concrete foundations, masonry/reinforced concrete structure, brick exterior, pitched roof, fire protection, access road, parking, landscaping, sprinkler system, and other necessary support. Air Conditioning: 100 Tons.					
11. REQUIREMENT: 1,999 PN ADEQUATE: 1,799 PN SUBSTANDARD: 0 PROJECT: Construct two 100 person dormitories. REQUIREMENT: Beddown construction is required to support the relocation of the B-52/KC-135 Combat Crew Training Squadron (CCTS) from Castle AFB CA to Fairchild AFB WA. CCTS training will add approximately 314 single enlisted personnel to current manning levels and 50 enlisted students. CURRENT SITUATION: Existing dormitories can accommodate approximately half of the dormitory requirements caused by the additional 314 single enlisted and 50 students personnel. No other adequate facilities are available to accommodate the additional personnel. IMPACT IF NOT PROVIDED: Living quarters will be unavailable for incoming unaccompanied enlisted personnel. They will be forced to live off base where there is strong competition for available apartments. ADDITIONAL: Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide."

10. Description of Proposed Construction: Site improvements, foundations, reinforced concrete, masonry and steel structure, block brick exterior, pitched roofs, fire protection, parking, demolition of existing pavements, landscaping, utilities and other necessary support. Air Conditioning: 300 Tons.					
11. REQUIREMENT: 230 PN ADEQUATE: 0 SUBSTANDARD: 0 PROJECT: Construct a Student Officers Quarters (SOQ). REQUIREMENT: Beddown construction is required to support the relocation of the B-52/KC-135 Combat Crew Training Squadron (CCTS). Adequate Student Officer's Quarters are required to accommodate 230 flying training students for the B-52/KC-135 CCTS. CURRENT SITUATION: The relocation of the Combat Crew Training School from Castle AFB to Fairchild AFB will produce a need to house 230 student officers on a continuous basis. There are no facilities on Fairchild AFB that can be redesignated or converted to student quarters. IMPACT IF NOT PROVIDED: Adequate space will not be available on base to accommodate personnel attending the B-52/KC-135 CCTS. The quality of crew training will be degraded due to lack of adequate housing close to training materials and devices. ADDITIONAL: Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide."

10. Description of Proposed Construction: Construct a free-standing Aeromedical Services building to include Flight Medicine, Bioenvironmental Engineering and Environmental Health. Alteration includes converting space currently occupied by the above functions into other clinic space. HVAC. Life safety, utility upgrades and other necessary support.					
11. REQUIREMENT: 21,435 SF ADEQUATE: 3,335 SF SUBSTANDARD: 3,000 SF PROJECT: Add to existing aeronmedical service facility and alter existing Bioenvironmental offices for clinical services requirement. REQUIREMENT: Closure of Castle AFB will cause an increase in the medical workload and staffing at Fairchild AFB. This project makes room in the existing medical annex building for expanding other necessary medical functions. CURRENT SITUATION: The present Aerospace Medicine and other outpatient care area is inadequate for the added population. IMPACT IF NOT PROVIDED: The new population moved from Castle AFB will have a difficult time gaining access to medical care. Some Air Force medical care may not be available due to physical building constraints. This will increase funds spent on CHAMPUS and supplemental care expenses. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide."

## **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

### **U.S. Air Force/Eaker Air Force Base, Arkansas**

**Closure Package:** Eaker AFB, Arkansas, closed 15 December 1992. The 97 Bombardment Wing was inactivated as a result of the closure. The B-52G aircraft retired and the assigned KC-135A aircraft were redistributed to other active and Air Reserve Component units in 1991. Actions to support these relocations and the subsequent closure of the base include:

1. Moving force structure and personnel.
2. Completing the disposal Environmental Impact Analysis Process and community reuse plans.
3. Transition to civilian control and ownership of the base.

### **One Time Implementation Costs:**

**Military Construction:** N/A.

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos and radon mitigation. There were currently 12 sites identified under the Eaker AFB Installation Restoration Program. One was closed out in FY 1990. The remaining sites consist of four land fills, a fire training site, two hazardous material spill sites, and four underground storage tank sites. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1994. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for FY 1994. The majority of the remedial actions should be installed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Caretaker	2.400	2.800	0.000	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/England Air Force Base, Louisiana**

**Closure Package:** England AFB, Louisiana, closed 15 December 1992. One squadron was redistributed to McChord AFB, Washington. All other aircraft were retired. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration costs.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
McChord AFB	Enlisted Dormitory	1994	<u>5,800</u>
Total 1994			5,800

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos radon mitigation. There are currently 42 sites identified under the England AFB Installation Restoration Program. These sites consist of landfills, spill sites, a fire training area and fuel storage areas oil/water separator, and underground storage tanks. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1994. The Feasibility Study to determine the most appropriate

method of cleanup is also scheduled for FY 1994. The majority of remedial actions should be installed in the FY 1994-95 time frame. Long-term monitoring is expected to be required for at least five years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. These funds are needed to relocate force structure and tenants to Eglin and McChord AFBs. The expenses for FY 1994 and FY 1995 include the costs associated with maintenance, protection, cleanup, and disposal of the property.

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>

<p>11. REQUIREMENT: 1,770 PN ADEQUATE: 918 PN SUBSTANDARD: 436 PN  <u>PROJECT:</u> Construct one 200 PN unaccompanied enlisted personnel dormitory.  <u>REQUIREMENT:</u> The requirements for this dormitory are based on enlisted population increases resulting from the Round II Base Closure of England AFB, LA and the beddown of an A/OA-10 squadron at McChord AFB.  <u>CURRENT SITUATION:</u> McChord AFB has a chronic dormitory shortage which will be exacerbated by the planned addition of 595 enlisted personnel to support this beddown. Local rentals are extremely limited and expensive; enlisted personnel often cannot find adequate and affordable quarters.  <u>IMPACT IF NOT PROVIDED:</u> Adequate living quarters will be unavailable, resulting in degradation of morale, productivity, and career satisfaction for unaccompanied enlisted personnel.  <u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facilities Planning and Design Guide".</p>

# **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

## **U.S. Air Force/Grissom Air Force Base, Indiana**

**Closure Package:** Grissom AFB, Indiana, will close by the end of the fourth quarter of FY 1994. The 305 Air Refueling Wing will inactivate. The KC-135R aircraft will be redistributed to active and ARC units; all EC-135L aircraft retired in mid-1992. The 930 Tactical Fighter Group (AFR) will convert from 18 A-10A to 12 A-10A and 6 OA-10A aircraft in late 1992, and become part of the 434 Air Refueling Wing (AFR). The 74 Air Refueling Squadron (ARS) will activate late in 1992 with 10 PAA KC-135R aircraft and become part of the 434 ARW. The 930 Civil Engineering Squadron (CES) will redesignate as the 434 CES and align under the 434 ARW. The 72 ARS will convert from KC-135E to KC-135R beginning in late 1992. The 434 Air Refueling Wing, with two KC-135R squadrons, one A/OA-10 squadron, and the 434 CES will remain in a cantonment area. The Air Force Reserve will operate the airfield, unless local/state authorities decide to convert this installation into a civil airport. Actions to support these relocations and the subsequent closure of the base include:

1. Preparing facilities for the Air Force Reserve remaining at Grissom AFB.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration costs.
4. Possible transition to civilian control and ownership of the base.

Conjunctively-Funded Construction: N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos mitigation. There are currently 11 sites identified under the Grissom AFB Installation Restoration Program. Two of these sites have been identified as requiring no further action. Four sites were reopened. The remaining sites consist of landfills, spill sites, and fire training area. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. A contract for the Remedial Investigation/Feasibility Study was awarded in 1991. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1993. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for late FY 1993. The majority of the remedial actions should be installed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are required to consolidate units which remain and relocate departing force structure and tenants. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	0.721	0.000	0.000	0.000
Unemployment	0.000	0.408	0.000	0.000
Travel	1.537	0.000	0.000	0.000

10. Description of Proposed Construction: Demolish old, unneeded, and asbestos-containing facilities. Project includes modification of existing utilities, metering, landscaping, and construction of new lines to consolidate the utility services in the Reserve component.					
11. REQUIREMENT: As required. <u>PROJECT:</u> Construct new utility connections to water, sanitary/storm sewer, gas and electric service. Provide metering stations for utilities exiting the component. Demolish facilities. <u>REQUIREMENT:</u> Closure of Grissom AFB requires a new component area for the remaining reserve unit. Adequate quantities of water, gas and electricity must be available to the reserve compound, as well as waste and storm water disposal. Other facilities are old, decrepit, and should be demolished. <u>CURRENT SITUATION:</u> Grissom AFB provides base operating support (BOS) to the assigned Reserve units. Upon closure the Reserve unit will consolidate into a reduced area. <u>IMPACT IF NOT PROVIDED:</u> Without the facilities provided by this project, the unit will not be capable of sustaining its mission requirements at Grissom AFB. <u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design".

10. Description of Proposed Construction: Remove existing boilers to make room for smaller, more efficient boilers. Modify the control systems and fuel distribution systems to accommodate the reduced capacity. Project includes modification of existing steam lines, utilities and other necessary support.					
11. REQUIREMENT: As required. <u>PROJECT:</u> Alter the existing heating plant to reduce capacity and increase efficiency. <u>REQUIREMENT:</u> Closure of Grissom AFB requires a new cantonment area for the remaining reserve unit. An appropriately sized central heating plant is required to provide steam for heating facilities in the cantonment area. Steam is also required for producing hot water year-round. <u>CURRENT SITUATION:</u> Grissom AFB provides base operating support to the assigned Reserve units. Following closure, the Reserve units will consolidate into a reduced area. The existing heating plant has a capacity far greater than is required for the smaller cantonment area. <u>IMPACT IF NOT PROVIDED:</u> The heating plant would operate far below peak efficiency at a fraction of its capacity. Operating and maintenance cost would be unacceptably high. <u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Loring Air Force Base, Maine**

**Closure Package:** Loring AFB, Maine, will close by the end of the fourth quarter of FY 1994. The 42 Bombardment Wing will inactivate and the B-52G aircraft will transfer to KI Sawyer AFB, Michigan, beginning in 1993. The KC-135A aircraft will be redistributed to other active and ARC units by the end of the third quarter of FY 1994. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration costs.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<b><u>FY 1994</u></b>			
Dyess AFB	Add to Hydrant Fueling System	1994	<u>4,050</u>
Total 1994			4,050

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos mitigation. There are currently 48 sites identified under the Loring AFB Installation Restoration Program. All of these sites have been identified as requiring further action and consist of four landfills, spill sites, a fire training area and an industrial shop area. The base was listed on the

National Priorities List in 1990 with the required Federal Facilities Agreement (FFA) being signed in 1991. Investigation and cleanup of these sites are being done using the process outlined in the FFA and the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination and the Feasibility Study to determine the most appropriate method of cleanup are underway. Under existing schedules, the final Record of Decision is not due until 1997. However, as a closure base this process will be accelerated to meet the 1994 Air Force goal. The majority of the remedial actions should be installed in the FY 1993-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most reuse options. Where property transfers are not possible due ongoing pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to their new locations. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	2.674	0.000	0.000	0.000
Unemployment	0.300	2.120	4.000	0.600
Travel	9.993	0.000	0.000	0.000
Transportation of Things	2.700	0.000	0.000	0.000
Other Supplies	0.307	2.080	0.000	0.000
Caretaker	0.500	1.195	0.000	0.000
Other Purchased Services	2.456	0.000	0.000	0.000

Military Personnel - PCS: Includes the costs to relocate military personnel due to closure.

Other Procurement: Includes the cost to purchase required communications equipment.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

TOTAL REQUEST (ROUNDED)					4,050
10. Description of Proposed Construction: Install flight line fuel supply and return piping, refueling pits, lateral control pits. Includes leak detection, 8 refueling pits, isolation valve pits, inter-connection to new hydrant system, emergency stops, airfield markings, pavement demolition, utilities, and site improvements.					
11. REQUIREMENT: 8 OL ADEQUATE: 0 SUBSTANDARD: 0 PROJECT: Construct extension to the Hydrant Fueling System. REQUIREMENT: Closure of Loring AFB ME. A new Type III constant pressure hydrant refueling system capable of feeding eight aircraft parking spaces equipped with refueling/defueling pits at 600 gpm flow rates is required to support realigned KC-135 aircraft. Force generation schedules for emergency war and contingency missions require a simultaneous refueling capability of five aircraft within on hour. CURRENT SITUATION: There is no current hydrant refueling system to support the additional 8 KC-135 aircraft on the existing available pavement stressed for KC-135 operations. Refueling of tanker aircraft without this project will be done with 6000 gallon capacity refueling trucks and require 7 trips to fill each aircraft. The one hour generation time requirement cannot be met using refueling trucks. IMPACT IF NOT PROVIDED: Due to excessive refueling time maintenance personnel will be unable to meet wartime mission generation schedules. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Lowry Air Force Base, Colorado**

**Closure Package:** Closing Lowry AFB, Colorado, depends upon relocation of 21 technical training courses to Sheppard, Lackland, and Goodfellow AFBs, Texas and Keesler AFB, Mississippi. These relocations began in FY 1992 and will be completed by the fourth quarter of FY 1994, when the base closes. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations and preparing Lowry cantonment facilities.
2. Moving technical training courses and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:** \$13.65 million in fiscal year 1993 projects have been reallocated to accommodate the decision to consolidate the services' visual information training programs in a single school at Ft Meade, MD. This amount includes \$8.8 million originally programmed for relocating Air Force training from Lowry AFB to Keesler AFB, MS. Funds will be transferred to the Army to support the Ft Meade projects. Fiscal year 1994 projects resulting from the closure of Lowry are shown below:

<u>Location</u>	<u>Project Title</u>	<u>Programmed Award Year</u>	<u>Amount (\$000)</u>
<u>FY 1994</u>			
Lackland AFB	Add to Physical Fitness	1994	380
Sheppard AFB	Add to Child Dev Center	1994	420
Sheppard AFB	Add to Chapel Center	1994	700
Keesler AFB	Add to Child Development	1994	450
Keesler AFB	Add to/Alter Physical Fitness	1994	<u>320</u>
Total 1994			2,270

**Conjunctively-Funded Construction:** N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; and polychlorinated biphenyl removal. There are 15 sites identified under the Lowry AFB Installation Restoration Program. The remaining sites consist of some underground storage tanks, a former landfill zone, a fire training zone and a fly ash zone. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The initial Remedial Investigation to identify the nature and extent of contamination was completed in 1991. A supplemental Remedial Investigation has been contracted through the Air Force Center for Environmental Excellence (AFCEE) for FY 93. The Feasibility Studies to determine the most appropriate method of cleanup are scheduled for FY 1994. The majority of the remedial actions should be installed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases. The Air Force expects to satisfy environmental requirements by applying unobligated balances from prior years.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Sheppard, Lackland, Goodfellow and Keesler AFBs. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	14.497	0.000	0.000	0.000
Unemployment	0.000	1.708	0.000	0.000
Travel	0.159	0.035	0.000	0.000
Transportation of Things	3.537	0.000	0.000	0.000
Communications	0.114	0.000	0.000	0.000
Caretaker	0.800	4.000	4.000	0.600
Other Purchased Services	5.046	0.114	0.000	0.000

Military Personnel - PCS: Includes the costs to relocate military personnel due to closure.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

# **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

## **U.S. Air Force/MacDill Air Force Base, Florida**

Closure Package: MacDill AFB, Florida, will realign force structure and partially close by mid-FY 1994. All F-16 aircraft will realign to Luke AFB, Arizona. The Joint Communications Support Element (JCSE) will move to Charleston AFB, South Carolina. The airfield will close, while the remainder of the MacDill AFB becomes an administrative base. Actual MILCON exceeds the original estimate provided the 1991 Base Closure Commission by 261% (\$26.1 million). The original estimates were derived from a costing model while the current estimates are based on detailed site surveys to establish requirements. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the areas of the base planned for closure.

### **One Time Implementation Costs:**

#### **Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<u>FY 1994</u>			
Charleston AFB	JCSE Comm Maint Facility	1994	4,600
Charleston AFB	JCSE Command Headquarters	1994	600
Charleston AFB	JCSE Joint Airborne Comm Center	1994	670
Charleston AFB	JCSE Alter Quick Reaction Company	1994	300
Charleston AFB	JCSE Joint Task Force Comm Facility	1994	2,700
Charleston AFB	JCSE Vehicle Maint Fac/Ready Area	1994	5,600
Charleston AFB	JCSE Alter Parachute Pack/Maint Fac	1994	450
Charleston AFB	JCSE Comm Operations Facility	1994	2,150
Charleston AFB	JCSE Supply Complex	1994	1,150

Charleston AFB	JCSE Upgrade Base Utilities	1994	3,000
Seymour Johnson AFB	71 Tac Control Operations Facilities	1994	<u>2,900</u>
Total 1994			24,120

Conjunctively-Funded Construction: N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated Biphenyl removal; and asbestos mitigation. There are currently 38 sites identified under the MacDill AFB Installation Restoration Program. The sites consist of landfills, spill sites, fire training area, underground storage tanks, and waste pits. These sites are not all located within the area scheduled for closure and disposal as the exact dimensions of this area have not been fully defined. Investigation and cleanup are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1994. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for FY 1994. The majority of remedial actions should be installed in the FY 1995-96 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Luke, Charleston, and Seymour-Johnson AFBs. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	5.343	0.000	0.000	0.000
Unemployment	0.511	0.000	0.000	0.000
Travel	0.325	0.000	0.000	0.000
Transportation of Things	1.076	0.000	0.000	0.000
Caretaker	1.000	1.231	1.300	0.600
Other Purchased Services	0.608	0.000	0.000	0.000

Exhibit BC-03

Military Personnel - PCS: Includes the costs to relocate military personnel due to closure.

Other Procurement: Includes the costs to purchase communications equipment to support the Joint Communications Support Element's mission after it relocates to Charleston AFB, South Carolina.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

10. Description of Proposed Construction: All electrical, mechanical, structural work and other necessary support to construct a communications facility. A loading dock with associated overhead doors and outside covered vehicle maintenance area is included. Air Conditioning: 200 Tons.					
11. REQUIREMENT: 64,584 SF ADEQUATE: 5,945 SF SUBSTANDARD: 8,186 SF PROJECT: Construct JCSE Joint Task Force Communications Facility. REQUIREMENT: Closure of MacDill AFB, FL. Properly configured and adequately sized facility for the Joint Task Force. The facility shall have a 400 SF SCIF that is adjacent to the administrative area. The rest of the facility shall be properly divided into the communications center, technical control center, and a high bay storage area. The facility shall have a loading dock with three associated overhead doors. There shall be adequate 100V single phase, 220V three phase, and 440V three phase in the SCIF, communications center, and the technical control center. CURRENT SITUATION: The current facility is located at MacDill AFB and is adequate. There are no existing facilities at Charleston AFB that can meet this requirement. IMPACT IF NOT PROVIDED: The mission of the Joint Task Force and the overall mission of JCSE will not be able to be accomplished. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

## **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

### **U.S. Air Force/Myrtle Beach Air Force Base, South Carolina**

Closure Package: Myrtle Beach AFB, South Carolina, will close by mid-FY 1993. Assigned aircraft will be redistributed to other Active and Reserve Component units, including one active A/OA-10 squadron realigned to Shaw AFB, South Carolina, and Pope AFB, North Carolina. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

### **One Time Implementation Costs:**

Military Construction: N/A.

Conjunctively-Funded Construction: N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated Biphenyl removal; and asbestos mitigation. There are currently 50 sites identified under the Myrtle Beach AFB Installation Restoration Program. Two of these sites have been identified as requiring no further action. The remaining sites consist of landfills, spill sites, and a fire training area. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway. The Feasibility Study to determine the most appropriate method of cleanup is scheduled for FY 1993. The majority of remedial actions should be installed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Shaw, Pope, and Seymour-Johnson AFBs. These expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Caretaker	3.900	2.600	2.000	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Richards-Gebaur Air Reserve Station, Missouri**

**Closure Package:** Richards-Gebaur Air Reserve Station (ARS), Missouri, will close at the end of the fourth quarter of FY 1994. The 442 Tactical Fighter Wing will relocate to Whiteman AFB, Missouri. The 36 Aeromedical Evacuation Squadron, 77 Aerial Port Squadron, and 78 Aerial Port Squadron will relocate to Peterson AFB, Colorado. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

Military Construction: N/A.

Conjunctively-Funded Construction: N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; and asbestos mitigation. There are currently eight sites identified under the Richards-Gebaur ARS Installation Restoration Program. Four of these sites have been identified as requiring further action. The other four sites have no further action required and are undergoing the state approval process. Investigation and cleanup is being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1994. The Feasibility Study to determine the most appropriate method of cleanup should be completed in FY 1994. Remedial actions should be completed in the FY 1993-95 time frame with long-term operations and monitoring expected to be required for at least ten years. But such actions are not expected to interfere with most reuse options. Where property transfers are not

possible due pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, other purchased services, and caretaker costs. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Whiteman and Peterson AFBs. The expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Civilian Personnel	9.821	0.000	0.000	0.000
Unemployment	0.000	0.370	0.000	0.000
Other Supplies	0.569	0.000	0.000	0.000
Caretaker	0.800	4.000	3.500	1.100
Other Purchased Services	2.449	0.000	0.000	0.000

Military Personnel - PCS: Includes the costs to relocate military personnel due to closure.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION

**U.S. Air Force/Rickenbacker Air National Guard Base, Ohio**

**Closure Package:** Rickenbacker Air National Guard Base (ANGB), Ohio, will close at the end of the fourth quarter of FY 1994. The 160 Air Refueling Group, the 907 Strategic Airlift Group (converted from the 907 Tactical Airlift Group), and 121 Air Refueling Wing (converted from 121 Tactical Fighter Wing) will relocate to Wright-Patterson AFB, Ohio. Six C-141B aircraft will relocate to March AFB, California vice Rickenbacker AGB as a result of this closure. The 4950 Test Wing will relocate from Wright-Patterson AFB to Edwards AFB, California. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<b><u>FY 1994</u></b>			
Wright-Pat AFB	Alter Squadron Operations Facility	1994	460
Wright-Pat AFB	Alter Composite Maintenance Facility	1994	1,550
Wright-Pat AFB	Alter Maintenance Hangar and Shops	1994	400
Wright-Pat AFB	Alter Avionics Aeromedical and Medical Trng	1994	<u>1,950</u>
Total FY 1994			4,360

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos mitigation. There are currently 38 sites identified under the Rickenbacker ANGB Installation Restoration Program. Eight of these sites have been identified as requiring no further action and are pending decision documents. The remaining sites consist of spill sites, a fire training area, underground storage tanks, and miscellaneous others. Investigation and cleanup are being done using the process outlined in the National Contingency Plan. Decision documents are pending on ten sites. The Remedial Investigation to identify the nature and extent of contamination at the other sites is currently underway. The Feasibility Study to determine the most appropriate method of cleanup should be completed in FY 1993. The majority of the remedial actions should also be completed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

**Operation and Maintenance:** Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, other purchased services, and caretaker costs. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are needed to relocate force structure and tenants to Edwards and Wright-Patterson AFBs. The expenses for FY 1994 and FY 1995 are summarized below:

<b><u>Expense:</u></b>	<b><u>FY 1994</u></b>	<b><u>FY 1995</u></b>	<b><u>FY 1996</u></b>	<b><u>FY 1997</u></b>
Civilian Personnel	0.533	0.000	0.000	0.000
Unemployment	0.000	0.817	0.000	0.000
Communications	0.492	0.000	0.000	0.000
Other Supplies	20.906	0.000	0.000	0.000
Caretaker	0.800	4.000	3.500	1.200
Other Purchased Services	14.867	0.000	0.000	0.000

**Military Personnel - PCS:** Includes costs for relocation of military personnel and replacing Air Force Reserve and Air Guard personnel lost due to closure.

**Other Procurement:** Includes the costs of required communications equipment.

**Revenues From Land Sales:** N/A.

**Savings:** Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

10. Description of Proposed Construction: Partition walls, ceilings, floor covering, replace exterior siding, repair leaking roof, electrical, mechanical, utilities, exterior work and other necessary support. Air Conditioning: 30 Tons.				
11. REQUIREMENT: 25,900 SF ADEQUATE: 0 SUBSTANDARD: 25,900 SF PROJECT: Alter building for ANG Avionics, AFRES Aeromedical Evacuation and Joint Medical Training. REQUIREMENT: Due to the closure of Rickenbacker ANGB, adequate space is required at Wright-Patterson to support realigning missions. The units require office and admin space, classrooms, conference room, storage and locker area for aeromedical evacuation. Adequate area for repair and storage of avionics components and areas to train medical personnel. Space is also required for medical equipment, testing, physicals, immunizations, dental treatment and records storage. CURRENT SITUATION: The facility is being used for avionics and support operations. Interior space configuration is not adequate for ANG avionics shop, medical training and aeromedical evacuation. IMPACT IF NOT PROVIDED: Without adequate avionics maintenance space aircraft will be grounded for longer periods awaiting maintenance, impacting mission generation. Without adequate medical and aeromedical training space, readiness will be seriously degraded and impact unit operational capability. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Williams Air Force Base, Arizona**

Closure Package: Williams AFB, Arizona, is recommended for closure by FY 1993/4. The 82 Flying Training Wing will be inactivated, and all aircraft will be retired or redistributed. The Aircrew Training Research Facility will be moved to Orlando, Florida. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

**One Time Implementation Costs:**

**Military Construction:**

<u>Location</u>	<u>Project Title</u>	<u>Fiscal Year of Award</u>	<u>Amount (\$000)</u>
<b><u>FY 1994</u></b>			
Orlando FL	Simulator Research Facility	1994	<u>4,400</u>
Total FY 1994			4,400

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Environmental compliance actions will include: underground storage tank testing and removal; and oil/water separator removal. polychlorinated Biphenyl removal; and asbestos and radon mitigation. There are currently 13 sites on base and one site at the non-contiguous area identified under the Williams AFB Installation Restoration Program. Nine of these sites have been identified as requiring no further action. The remaining sites consist of a landfill, spill sites, a fire training area and a liquid fuel storage area. The base was listed on the National Priorities List in 1989 and a Federal Facilities Agreement

Exhibit BC-03

(FFA) was signed in 1990. Investigation and cleanup of these sites is being done using the process outlined in the National Contingency Plan following the guidelines of the FFA. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1993. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for FY 1993. The majority of the remedial actions should be installed in the FY 1993-94 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such actions are not expected to interfere with most reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are required to relocate force structure and tenants to Orlando Florida and other locations. The expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Unemployment	1.134	0.000	0.000	0.000
Transportation of Things	2.632	0.200	0.000	0.000
Caretaker	3.100	1.856	1.400	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

10. Description of Proposed Construction: Existing building will have to be reconfigured for new requirements. Includes retrofit of wet pipe fire sprinkler system and improving computer research area (secondary electrical/air handling).					
11. REQUIREMENT: 50,000 SF ADEQUATE: 0 SUBSTANDARD: 50,000 SF PROJECT: Purchase an existing 50000 square foot building and reconfigure for new mission. REQUIREMENT: Closure of Williams AFB. Purchase an existing building at the Central Florida Research Park. This facility is required to house the Armstrong Laboratory, Simulator Research Directorate's Operations Training Division. The facility will have a teleconferencing center, contractor space support areas, electronically secure simulator and computer space for operating and maintaining the Computer Image Generated Combat Simulators (CIGCS). CURRENT SITUATION: The Armstrong Laboratory Division is presently located at Williams AFB. A single story warehouse structure encompassing 50,000 SF on 5 acres of land is located directly adjoining Naval Training Systems Center (NTSC) and Army Simulation, Training, and Instrumentation Command (STRICOM) complex at Orlando Research Park, Florida. The laboratory currently occupies 98,000 SF in nine separate buildings at Williams AFB. IMPACT IF NOT PROVIDED: The program for obtaining research data essential to the survivability and effectiveness of aircrew personnel in a combat environment will be extremely limited. ADDITIONAL: Funding is to be provided from the Base Closure Account. There is no criteria/scope for this project in Part II of Military Handbook 1190, "Facility Planning and Design Guide".

## **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

### **U.S. Air Force/Wurtsmith Air Force Base, Michigan**

Closure Package: Wurtsmith AFB, Michigan, is recommended for closure by FY 1993/4. The 379 Bombardment Wing will inactivate. The B-52G aircraft will be retired. The KC-135A aircraft will be redistributed to active and Air Reserve Component units. Actions to support these relocations and the subsequent closure of the base include:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

#### **One Time Implementation Costs:**

Military Construction: N/A.

Conjunctively-Funded Construction: N/A.

Family Housing Construction: N/A.

Family Housing Operations: N/A.

Environmental Compliance and Restoration: Environmental compliance actions will include: Resource Conservation and Recovery Act facility investigations and corrective actions; underground storage tank testing and removal; polychlorinated biphenyl removal; and asbestos mitigation. There are currently 50 sites identified under the Wurtsmith AFB Installation Restoration Program. Previous non-IRP sites are now included in this total. Two sites have been closed out. Two previously closed sites have been reopened. The remaining sites consist of six landfills, 28 spill sites, two fire training areas, six underground storage tanks, an explosive ordnance area, a sludge drying/spreading area, and other miscellaneous categories. Investigation and cleanup of these sites are being done using the process outlined in the National Contingency Plan. The Remedial Investigation to identify the nature and extent of contamination is currently underway and should be complete in FY 1993. The Feasibility Study to determine the most appropriate method of cleanup is also scheduled for FY 1993. The majority of the remedial actions should be installed in the FY 1994-95 time frame. Long-term operations and monitoring are expected to be required for at least ten years after remedial actions are installed, but such activities are not expected to interfere with most

reuse options. Where property transfers are not possible due to pending cleanup, access to most facilities for reuse could be allowed through interim leases.

Operation and Maintenance: Includes one time communications costs, civilian severance pay, civilian permanent change of station costs, transportation of things, TDY expenses, purchased equipment maintenance, and other purchased services. Also included are the caretaker costs associated with maintenance, protection, cleanup, and disposal of the property. These funds are required to relocate force structure and tenants to other active and reserve installations. The expenses for FY 1994 and FY 1995 are summarized below:

<u>Expense:</u>	<u>FY 1994</u>	<u>FY 1995</u>	<u>FY 1996</u>	<u>FY 1997</u>
Unemployment	1.124	0.000	0.000	0.000
Caretaker	3.200	2.850	1.600	0.000

Military Personnel - PCS: N/A.

Other Procurement: N/A.

Revenues From Land Sales: N/A.

Savings: Savings identified are generated by no longer operating the installation. They are included for display purposes only and will be realized in other Air Force accounts.

## BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION

### U.S. Air Force/Chanute Air Force Base, Illinois

**Closure Package:** Chanute AFB will close by the end of FY 1993. Changes to the 1988 Base Closure Commission recommendations include relocating several courses originally scheduled to relocate to Lowry AFB, Colorado. In addition, the technical training fuels course relocates to Sheppard AFB, Texas, and the fire course realigns to Goodfellow unless a satisfactory and cost effective contract can be arranged. The costs displayed here are only those driven by the 1991 Base Closure Commission recommendations. Other costs and all savings associated with the closure of Chanute AFB are contained in the Base Closure Account (Part I) Justification Book. The following actions will take place:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental compliance and restoration costs.
4. Transition to civilian control and ownership of the base.

## BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION

### U.S. Air Force/George Air Force Base, California

**Closure Package:** George AFB closed 15 December 1992. Changes to the 1988 Commission recommendations include the following: The F-4G aircraft will retire or be realigned to the Idaho Air National Guard. The 35 Tactical Training Wing will be inactivated. The 41 Electronic Combat Squadron will remain at Davis-Monthan AFB, Arizona. The EF-111 aircraft at Mountain Home AFB, Idaho, will realign to Cannon AFB, New Mexico. A composite wing will be established at Mountain Home AFB. The costs displayed here are only those driven by the 1991 Base Closure Commission recommendations. Other costs and all savings associated with the closure of George AFB are contained in the Base Closure Account (Part I) Justification Book. The following actions will take place:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

<p>10. Description of Proposed Construction: Reinforced concrete foundation and floor slabs, masonry walls and roof. Includes room-bath-room modules, laundries, storage and lounge areas and all supporting facilities. Air Conditioning: 130 Tons.</p> <p>11. REQUIREMENT: 1,686 PN ADEQUATE: 500 PN SUBSTANDARD: 978 PN PROJECT: Construct a 208 person unaccompanied enlisted personnel dormitory.</p> <p><u>REQUIREMENT:</u> Support the beddown of a composite flying wing at Mt Home AFB, Idaho. A major Air Force objective provides unaccompanied enlisted personnel with housing conducive to their proper rest, relaxation and personal well-being. Properly designed and furnished quarters providing some degree of individual privacy are essential to the successful accomplishment of the increasingly complicated and important jobs these people must perform.</p> <p><u>CURRENT SITUATION:</u> The base has insufficient facilities to accommodate the unaccompanied enlisted personnel housing. Local rentals of a size and cost conducive to unaccompanied enlisted personnel, are extremely limited.</p> <p><u>IMPACT IF NOT PROVIDED:</u> Adequate living quarters will be unavailable resulting in degradation of morale, productivity, and career satisfaction. Air Force will be unable to "package" aircraft in composite wing mode to gain efficiencies in wartime readiness training and lessons learned from Desert Storm will not be adequately implemented.</p> <p><u>ADDITIONAL:</u> Funding is to be provided from the Base Closure Account. This project meets the criteria/scope specified in Part II of Military Handbook 1190, "Facility Planning and Design Guide".</p>

**BASE CLOSURE AND REALIGNMENT  
PACKAGE DESCRIPTION**

**U.S. Air Force/Mather Air Force Base, California**

**Closure Package:** Mather AFB, California, will close by the end of FY 1993. Changes to the 1988 Base Closure Commission recommendations include relocating the 940 Air Refueling Group to McClellan AFB, California, leaving the 323 Flying Training Wing Hospital open as an annex to McClellan AFB, California, and relocating the Undergraduate Navigator Training mission to Randolph AFB, Texas. The costs displayed here are only those driven by the 1991 Base Closure Commission recommendations. Other costs and all savings associated with the closure of Mather AFB are contained in the Base Closure Account (Part I) Justification Book. The following actions will take place:

1. Completing construction at gaining locations.
2. Moving force structure and personnel.
3. Completing the disposal Environmental Impact Analysis Process, community reuse plans, and environmental restoration actions.
4. Transition to civilian control and ownership of the base.

## **BASE CLOSURE AND REALIGNMENT PACKAGE DESCRIPTION**

### **U.S. Air Force/Program Management**

**Closure Package:** This exhibit displays overall one-time implementation costs which are not categorized by closure base. These costs include military construction planning and design, environmental studies, and headquarters management requirements.

#### **One Time Implementation Costs:**

**Military Construction:** Includes costs for planning and design for all base closure construction projects.

**Conjunctively-Funded Construction:** N/A.

**Family Housing Construction:** N/A.

**Family Housing Operations:** N/A.

**Environmental Compliance and Restoration:** Includes costs for headquarters manpower needed to manage the execution of cleanup actions at closure bases. This staff supervises all aspects of complying with various state and federal environmental statutes prior to transferring government properties in accordance with the Air Force's Record of Decision. Additionally, the management of supplemental contracts effected at field operating agencies is overseen by this headquarters element.

**Operation and Maintenance:** Includes one time management costs for civilian personnel pay, disposal EIS, and TDY expenses. Civilian personnel costs are related to the hiring of personnel to manage the construction, environmental, and real property disposal programs for each disposal package. Computer maintenance, utilities, and control tower contracts are also included. These expenses for FY 1994 and FY 1995 are summarized below:

<b><u>Expense:</u></b>	<b><u>FY 1994</u></b>	<b><u>FY 1995</u></b>	<b><u>FY 1996</u></b>	<b><u>FY 1997</u></b>
Civilian Personnel	10.240	11.350	11.170	6.970
Travel	0.405	0.340	0.275	0.170
Utilities and Rents	1.650	0.850	0.050	0.050
Purchased Equip Maintenance	0.095	0.155	0.165	0.095
Equipment	3.717	1.700	1.245	1.505

**Military Personnel:** N/A.

Exhibit BC-03

Other Procurement: Includes costs to purchase and maintain communications equipment and computer systems for the headquarters and field operating agencies which constitute the Air Force Base Disposal Agency.

Revenues From Land Sales: N/A.

Savings: N/A.

National Technical Information Service  
Springfield, VA 22161

***This report was printed specifically for your order  
from nearly 3 million titles available in our collection.***

For economy and efficiency, NTIS does not maintain stock of its vast collection of technical reports. Rather, most documents are printed for each order. Documents that are not in electronic format are reproduced from master archival copies and are the best possible reproductions available. If you have any questions concerning this document or any order you have placed with NTIS, please call our Customer Service Department at (703) 487-4660.

### **About NTIS**

NTIS collects scientific, technical, engineering, and business related information — then organizes, maintains, and disseminates that information in a variety of formats — from microfiche to online services. The NTIS collection of nearly 3 million titles includes reports describing research conducted or sponsored by federal agencies and their contractors; statistical and business information; U.S. military publications; audiovisual products; computer software and electronic databases developed by federal agencies; training tools; and technical reports prepared by research organizations worldwide. Approximately 100,000 *new* titles are added and indexed into the NTIS collection annually.

For more information about NTIS products and services, call NTIS at (703) 487-4650 and request the free *NTIS Catalog of Products and Services*, PR-827LPG, or visit the NTIS Web site  
**<http://www.ntis.gov>**.
